DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of the eleventh embodiment as shown in Figure 20, claims 1, 11, and 13 in the reply filed on March 14, 2005 is acknowledged.

Claims 2-10, 12, 14-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected embodiment, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Flory (U.S. Patent No. 5,390,373). Flory discloses in Figures 1 and 2 an eye goggles (2) comprising eyepieces (3) consisting lenses (4), a nose piece (10) joining the eyepieces (3) together in a spaced apart relationship, the nose piece (10) being inserted through the eyelets (19) and secured therein by posts (23), and the eyelets (19) on each eyepiece (3) for attaching the nose piece (10) are substantially parallel to each other. With regards to lenses (4) being made of material that can block radiation, Flory teaches the lenses (4) are preferably comprised of UVAD tinted

polycarbonate plastic for reduction of the sun's harmful ultraviolet rays (column 3 lines 46-50).

The Flory lenses are capable of blocking radiation energy.

Allowable Subject Matter

Claims 11 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
